

W.O.L.F.

one sheet 2025

CÉSAR CAPISTRÁN aka W.O.L.F. DJ, producer, and founder of PHISICA, W.O.L.F. is a key figure in Spanish-language electronic music. With over 15 years in the scene, he was part of The Wookies and has worked with artists like Silverio, Kinky, and Andre VII.

His sound blends techno, house, and Latin rhythms, with a bold and elegant identity — and always in Spanish. From Mexico, he has toured internationally, performing in Berlin, Tokyo, Montreal, Seoul, Barcelona, and across Latin America.

He leads the movement “Rave en tu Idioma,” pushing forward a new wave of Spanish-speaking talent. His tracks “Niña”, “TODOS SON DJS”, and “Discoteca Exótica” have become underground anthems, while hits like “Perdido” and “Dame Más” reached global charts.

His label PHISICA has ranked top 2 worldwide, and in 2025, he’s releasing his second studio album with collaborations from Zoe, Titán, and María Daniela y su Sonido Lasser.
